In a railroad accident, on street cars, automobile or steamboat, or lose your life in a burning dwelling, hotel, theatre, store or barn, or while riding in your own or somebody else's buggy, or by being struck or run over by any conveyance or vehicle, and you may never have ty-phoid fever, pneumonia, appendicitis, diphtheria, scarlet fever, smallpox, yellow fever, varioloid, spinal menengetis, hydrophobia or any of about 65 other diseases covered by the "Reliance Limited Accident and Health Policy," issued by the New England Casualty Co., but if you should, and had no policy, you would feel like kicking yourself, because of your short sightedness in failing to invest ten bucks for one year's insurance. It is the most liberal accident and health policy ever issued for an annual premium of \$10.00. Ask for particulars. Regarding the Monument

The Monument is the sole product of man which is expected to exist, without change or repair, for all time—beyond the memory that we cherish in our hearts, which is only as long as the span of life. It may help to form a record, but it is erected as a tribute of love to those who have passed "to that bourne from whence no traveler ever returns." As such, let it be a thing of beauty, not dark and somber, but bright and cheerful; not typifying earthly sor-row, but symbolizing undying love. And as architecture is brought to us from the past by the tombs of the ancients, so let us pass on to those in our steps, some worthy expression of our conception of beauty.
